Some Improved Cycles of Action
(for self, another, others)

1. Start - Change - Complete
2. Reach - Interchange - Enhance
3. Produce - Exchange - Expand

These take the STOP, WITHDRAW, and SHRINK factors out of the "old" cycles involving self, another, and others.

• BRS/CS/Rons

Note:
#2 can be expressed in tech terms as: Contact - Audit - Free (for an individual Ex)
and: Perceive - Audit - As-is (for a creation)
