

EXCUSES

FOR A NEW WORLD ORDER

5/02/02

AmBush said in one of his speeches “**We must fight Evil**”.

This does not mean at all that he wants to get rid of it. He will only increase it by bombing other nations.

It is rather obvious that Terrorism you “fight” with intelligence and correct legislation aimed at the true criminals, not at the citizens.

This AmBush administration is “fighting” terrorists and also nations producing weapons of mass destruction as well as chemical weapons.

EXCUSES, as the US is **THE** nation that has the MOST weapons of mass destruction and chemical ones, but this is not all, the US has also terrorist training camps that I will describe at the end of this article.

It amazes me that the world at large, and the American people in particular cannot see something so obvious.

The ‘take over’ has started slowly with the introduction of globalization and the World Bank system, but it has hugely increased after the 11th of September.

If you read the “**16**” that are on this page, you will see that terrorism is paid even by the Vatican (# 4 of the “**16**”).

Also if you read the link (showed at the bottom of my page), you will get ample information about a group that has provoked both World War I and II. If they could do this, they could easily have planned the September 11 attack. This group is always infiltrated with both sides of a war. In this case it is with the government’s war against terrorism and with the terrorists.

We all know that the CIA has trained Bill Laden. I would not be astonished if the same CIA is now protecting him.

American taxpayers are being cheated. AmBush is draining their resources by continuous bombing and creating an enormous DEFENSE system, which is probably aimed at giving good profits to his Skull & Bones brotherhood.

The possibility exists that the next attack staged by this group or a terrorist one, will come from an underground location. This will make the anti missile system even more ridiculous.

The terrorist threat is being kept ALIVE by the Take Over Group in order to be able to manipulate, if possible all the citizens on Earth and in particular the American people who are paying for the whole “show”.

It would be great if “Fight the Evil” would also mean to get rid of all the negative sides of the American production and corruption.

All of this is only an **EXCUSE** to take over the World.

What about bombing the US because it ALSO has some very sophisticated terrorist training camps?

Here I will describe the 6 camps I have found.

New Mexico North of Albuquerque – Bernalillo, area of Indian Reservation.

This seems to be an excellent training place in a restricted area.

It is located not too far from an Alien Base in Las Vegas, Baldy Pls, New Mexico that has the purpose of DRIVING THE WORLD CRAZY!

In this camp we find lots of young people.

It is easy to experiment with Indians. They learn to keep the region under siege by using sexual abuses, kidnapping, torture, assassination, etc.

These young people feel very powerful and well protected as they work for the ‘law’.

It is a CIA camp that works under the name of “Strengthening our Youth”

These guys are trained not to fear anything; they are the LAW in the region they work.

Great pay IF things succeed without being discovered.

If taken into prison their memory will be “erased”.

Minnesota North of St Cloud, near Foley.

Here they learn gas attacks and defense and to move under a city. To excavate if necessary.

This will keep people TERRIFIED.

An exercise camp for body fitness to produce healthy and strong people.

They train in the nearby cities where they do not draw much attention.

Cooperation and communication with their assigned team is important.
