

PLANE CRASHES

11/11/1999

You may not be aware about the reason for so many plane disasters, but also here we find our Greys interfering.

The UFOs cause about 50% of all the crashes.

The main reason is the electromagnetism used by their Ships. Electrical motors and instruments used in our planes stop in the presence of this magnetism. Basically they do not even need to shoot at the planes. Only by flying from 1000 to 2000 meters above them, following them for a rather short period of time, cause motors and instruments to stop, and the machine falls. Naturally, they also have weapons they can use.

There will be no damage shown on such a crash. They can do it just the way they want, as no one can see them at such altitudes.

We get no **true** information. The Navy, which often makes the search, is very much aware of the Grey's presence here on earth.

I can give you a couple of examples on how our machines react to the UFOs.

A friend of mine travelled one night through some mountains. Suddenly a UFO appeared very near him. The car stopped, the lights went off. When the Ship left, his car could drive in a total normal way.

The other example I heard is about pilots complaining when they have to land at Mexico City Airport. Once in a while, the motors and instruments behave strangely. They get afraid when this happens. The reason for this is that the UFOs are flying in the area, as there are quiet some bases in the surroundings.

As I describe in the Alien Bases data, naturally they use more than these Plane Crashes in trying to subdue us. We also have:

Terrorism

Corruption

Provoked Wars

Provoked Riots

Provoked Diseases

Provoked Meteorological Disasters

Provoked Financial Crisis

Geophysical War (possibly causing earthquakes)

Mental War

Filling us with Drugs

Pollution

This was just to name a "few" facts which surround us, and which we have to learn to live in. They are creating such a confusion that no one can see through it.

The purpose for most of these things is to get us so desperate that we will be more than willing to ask for their help. If we do so, we will have "total peace" and a 100% slave society.

No one will believe that so much wickedness exists!

The able Powers use all their abilities to **destroy**. This is masked by "beautiful" speeches of world peace, etc.

Our world is saturated by negative intentions and, we are starting to think in a negative way too, seeing no way out of our difficulties. This helps the opposition, and so does our continuous irresponsibility. We leave it all to our governments or so-called leaders, but few participate actively to improve conditions.

But not everything is done by the Ets!

We co-operate with our share, as for example the atmospheric disasters. These are produced by terrestrials, somewhere in the northern part of Canada and Alaska. High technology machines **exist** to "regulate" the weather, such as rains, droughts, typhoons, hurricanes, etc.

Yes, with such technology we could have, here on earth, a paradise, but we use it all to create our daily hell.

Did you notice that in all this floods and hurricanes **no rich people have died?** A rather awful way of killing and making disappear quite a lot of people! The poor people are not needed in our oppressor's plans of ruling the world!

We have more than plenty people living in misery. They have been "helped" by our Global Economy and International Businesses.

What is missing is a *sincere* purpose to help the world population as well as our nature.

Speeches do not help when you are starving or freezing!

Sorry, we are being manipulated worse than sheep, because we HAVE the POWER to do things, but we have given it to false believes, false governments and false economies.

We are only doomed if we permit others to lead our lives, if we believe in all the lies we are being fed, instead of using our COMMON SENSE, AND ACT UPON IT!

We badly need leaders with a true wish to lead towards real prosperity, not only billions for the few!

"If you help yourself, God will help you".

*This also means that if something **POSITIVE** gets started, it **WILL** find co-operation.*

On the other hand "someone else should do the needed things", leads to more misery, and is EXACTLY what the Negative Powers wish.

BELIEF IN THE POWER OF EACH INDIVIDUAL, CERTAINTY IN WHAT EACH OF US CAN ACHIEVE, CAN CHANGE ALL THESE CREATED SCENARIOS!
