

# THE PALESTINIAN THREAT

The Muslim population grows at an incredible rate; 10 to 20 children in a family, (from more than one wife). The situation in the 80ties was that the Christian population in Lebanon had become a minority and a lot of Christians had just left their country to settle in Europe or the US because of the civil war. The PLO and other groups had invaded the south of Lebanon and had turned the region into a chaotic territory where the inhabitants had to follow the orders of terrorists or they risked to be tortured and shot.

The Hisbollah (Iranian terrorist movement), claimed victory and the **Palestinians communicated that they would use the same model to liberate Palestine from the Jews. That is the plan they are executing now.**

As Arafat could not get what he wanted until now, he is using the press and the TV trying to obtain it in offering Palestinian mothers money to send their children to endanger themselves in bringing ammunition to terrorists. They offer 300 USD for getting wounded and 2,000 for getting killed. At the same time they drug young people to get them ready to function as living bombs, promising them to get paradise and have 70 virgins to their feet serving them wine and other delights in wonderful gardens.

So, you can see the reason why so many young people are eager to fight.

I have also heard that, when some of these young children get killed, the mothers are not paid the promised amount!

These are **television wars**, and I have already written an article about it.

I just wanted some truth to come out, of what is really going on. Also if there were less reporters there, there probably would be less crazy killings!

It would be interesting to see what the Human Rights group would do if they saw this manipulation!

## **A FORGOTTEN SOLUTION.-**

Winston Churchill remarked in 1944 that the sole solution would be a *'kind of partition'*.

Recently Pope Paul stressed a solution emphasising the establishment of a Free International City, where all religions could practice their worship. But apparently nobody has even commented on this proposition.
