PROGRAM STARTED 20.4.72

D OF P INTERVIEW—

On checking for PTS Type A pc says no. *However, pc does feel she's PTS to post environment* Pc says, “I am physically sick and because of that I'm getting Exp Dn. So far had a lot of medical handling and so far not much handled. The Doctor I just went to seems to think he spotted some sort of worm in my system, but it's not verified yet. MO should have the data but that's a medical thing. I know that I've got an overactive colon and also an ovarian infection.

I don't feel like I'm PTS—if I am it's a case thing.”

D OF P COMMENTS—

Pc really not confronting, obviously she is still sick! But with D of P action could not punch through that and get what it was, or is. She's just very strongly blank on it.

LRH COMMENT—

“No she isn’t blank.

She’s PTS to Environment of Post!

PTS is a Person or Thing.

New Pgm needed to list this.

D of P. Do on meter next time.”

LRH C/S 20.4.72—

“Says she was PTS to Env of Post.

She is PTS.

She thought you’d debar auditing I’m sure.

1. Clear backwards, L&N ‘Who or What in your post environment were you PTS to?’ Check for read. List to BD F/N item.

2. R3R Triple on item.”

The pc was not audited that day so LRH put the above C/S as Step 3a on the program and C/Sed to do Step 2 first.

LRH C/S 21.4.72—

“1. Who would I have to be to audit you? F/N.

2. What could you talk to me about? F/N.

3. Touch Assist.

4. Hav.”

The C/S was done. In addition the MO gave the pc a couple of touch assists for a pain in the lower tummy. The pc says at the Examiner: “It was a nice session. But there is something with R3R and me that don’t agree. But I liked the session.” TA 2.2 Normal F/N VGIs.

AUDITOR’S COMMENTS AND C/S—

Pc’s in-session mannerisms are so similar to (Case B’s) initial sessions it’s amazing. The same “Well it’s a bit silly trying to run engrams on me, but I’ll play along” attitude.

We’re not in the pc’s area of interest.

0. D of P PTS check.

184

1. 2wc to F/N.

2. Clear L-3 Exd Word.

3. L-3 Exd RD to EP.

4. 2wc “What do you really want handled?” Note all LF, BD items.

On this day LRH sends a note down for the folder:

“This pc has had a lot of Evil Purposes found on L-10, etc that will have to be R3Red.

She has MisUs on and wrongly run Dn.”

The auditor seeing this note writes a note to LRH.

AUDITOR NOTE 23.4.72—

Dear Sir,

Per my 21.4.72 session pc is much stronger, having had regular Touch Assists from the MO. She is up most of the day now.

Suggest my attached C/S.

1. D of P PTS check.

2. 2wc to F/N.

3. Clear WCCL and WC C/S 1 words.

4. WCCL to F/Ning list.

5. Hav to F/N.

LRH REPLY 23.4.72—

“Hey, no. She just fell on her head yesterday. See exam report.” (See above.)

“Do C/S.” (See below.)

The word MO in the note is ringed and LRH writes “She’s your pc.”

LRH C/S 23.4.72—

“Well done.

No initial (LRH) on pgm itself.

We’re out of her depth too soon. This is a detached sort of pc.

Attention mainly on body (2D history), she’s not confronting. Possibly even below bank awareness. Possibly just sensation or pain registers. This Pgm Step 3 not completed.

(Hav and Touch Assists until pc stronger.)

1. 2wc to F/N. (Just to get in comm a bit.)

2. Touch Assist.

3. Hav.”

The auditor does the Touch Assist and on his own C/S he draws a box with the caption “Space for LRH to write ‘See?—I told ya, didn’t I?’.”

LRH writes in the box “When all else fails do what Ron says.” And by the caption he writes “I never say I told you so, I rarely have to.”

185

The session is given a “Very well done” and the next C/S to continue the Touch Assist and Hav is “Okayed”.

This routine is continued for 3 days. On the 26.4.72 LRH adds to the auditor’s C/S.

AUDITOR’S C/S—

1. Hav to F/N.

2. Touch Assist to win.

“2a. 2wc to F/N (just to give her a little bit of straight auditing to groove her in),” added by LRH.

3. Hav to F/N.

Several sessions of above a day.

This is continued each day till the 30.4.72. At the Examiner the pc says, “I feel like I came out of a terrible death or something. I had a terrible attack of God knows what.”

LRH COMMENT AND C/S—

“Well done by Exams.

\*This pc had to have another T Assist after this session. She is also malingering. Rides motorcycles, dances, yet ‘too ill to work’. So she goes to SPF and off MO lines.

1. Fly all ruds triple.

2. PTS C/S 20 April 72.

We now take gloves off.”

The PTS Interview C/S of 20.4.72 was done.

AUDITOR’S COMMENT AND C/S—

She’s PTS to “People”—oh Boy.

1. Hav to F/N.

2. L&N “W/W wd represent people?” (Clear backwards and check for read.)

3a. Clear R3R words.

3b. R3R Triple item.

4. Triple ruds and overt item in F1 Basic Incident.

5. PTS RD Corr List. Clear and assess to F/Ning list.

LRH—“OK”.

The auditor does the above C/S. Towards the end of session the pc says “feeling of being unsafe—don’t know if handled or not”.

AUDITOR’S COMMENT AND C/S 8.5.72—

Handled the item which would represent “people”. Good result.

She had a H. Std at end of session—p. 26 on “doesn’t know if handled yet”. Should be handled as part of this program. I suggest:

---

\*FOOTNOTE: SPF = Stewards Project Force.

186

0. Hav to F/N.

1. L&N Intentions connected with “feeling of being unsafe” (check for read and if none and if supp and inval don’t read, drop it).

2. R3R Triple.

3. Clear WCCL and WC M1 commands.

4. WCCL to F/N list.

5. WC M1 and added subjects.

LRH COMMENT AND C/S 9.5.72—

“Well done.

C/S suggestion is a serious error.

You must combine significances with terminals, not with significances. You can’t list successfully ‘What is your thought about a thought?’

You can list successfully ‘What is your thought about a mass?’ (or terminal?).

‘What mass could be connected to what thought’ could even be listed.

You start running significances about what masses and you’ll do well. If you start running thoughts about thoughts you’ll pull thoughts out of engrams and restim the

devil out of the bank.

You have an Exp Dn Item in 'feeling very unsafe'. What more do you want!  
But this pgming is kind of crazy on this pc. It is sort of out of sequence. How come  
we're repairing M1 before we finish the Exp Dn. Why wasn't M1 corrected first.  
Also I don't know what 'Ruds on Basic F1 Inc' was all about. I don't even know what  
was meant, as can't tell from W/S.

This pc is being run off pgm. Finish what you have your hands on. Don't step about.  
1. 2wc 'What she feels unhandled about what we ran?' Note all BD F/N Items.

2. Touch Assist.

3. Hav.

Reprogram this case. Get R3R or whatever in on the C/S above. Then get the pgm  
smoothed out. It's jumped the rails."

AUDITOR'S NOTE TO LRH—

Dear Sir,

Re your C/S for pc of 9.5.72.

You mention not digging the Triple Ruds on Basic of F-1 Incident.

This was done as the L&N was to specify the terminal she was PTS to after D of P  
Interview came out with "PTS to people".

The HCO B requiring Triple Ruds on Basic of F-1 Incident is 13 Feb 72, written by OJR  
and LK. It is attached—refer page 2. This was applied in this case as the step was to  
handle PTS terminal.

As the HCO B is not written by you I am bringing it up in case there has been an error.

Love, (Auditor).

187

LRH REPLY—

\*\*"Got it. No, it's okay."

At this time the pc comes off the antibiotic (Chloramphenicol) that she had been on but temperature  
went right up again so the MO put her back on the antibiotic.

The above LRH C/S was done.

AUDITOR'S COMMENTS AND C/S—

Did the 2wc and Touch Assist.

Per her Itsa she's just short of being fully cured. (Origin to C/S last couple of pages.)

1. Rud to F/N.

2. R3R Triple on "unsafe" item mentioned. (Get her to state item.) "Use her wording  
only when given" added by LRH.

3. 2wc "How are you doing now?"

4. If all well attest Exp Dn complete.

LRH COMMENT—

"Very well done."

The auditor does the C/S.

AUDITOR'S COMMENTS AND C/S—

Went fine. See 2wc Orig—she has some hidden standards and also some attention on PTS  
and on her effect on body.

I haven't seen the latest on PTS RD yet but as the last action was the "final" step of her  
last PTS Interview being handled I wd suggest:

1. Any further PTS handling (per recent researches).

2. To Exp Dn Pgm.

LRH COMMENT AND C/S 13.5.72—

"Well done.

I don't see a hidden standard. I do see a PTS situation or overlooked terminal.

See in red correct way to clarify words on a W/S. Don't overwrite.

(diff colour)—TOTALLY

Example from W/S: Want to get (XXXXXX) well

Illegible word

\*\*See (other pc folder) note of this date for new PTS RD steps.

As these are run a new terminal may show up.

1. PTS Can't Have RD."

*\*FOOTNOTE: Above HCO B on running Ruds on F-1 basic was later cancelled as an incorrect procedure.*

\*\*FOOTNOTE: This now issued as an HCO B—9 Dec 1971RA, “PTS Rundown”.

188

LRH PROGRAM 13.5 .72—

“PTS RD incomplete as still ill.

1. Can’t Have RD.

2. When a new item shows up, D of P Int and PTS engrams on it, then complete the Can’t Have RD.

3. Then to Exp Dn.”

AUDITOR’S COMMENTS AND C/S (After doing above C/S)—

RD going well. Auditor error — slow TRs = underestimating pc = not auditing pc in front of him.

Also she ran into physical tiredness due to not having her usual mineral supplement from MO today. (Obnosis slip.)

I handled the TRs.

0. Ensure not tired and well fed.

“00. Fly all ruds” added by LRH.

1. Complete remaining terminals on Can’t Have.

\*2. To D of P to verify or trace other terminals mentioned in end of today’s session to which the pc may be PTS.

3. PTS RD on any found if known before this L/T.

4. Check for any others.

5. Repeat 3.

6. Can’t Have RD on any terminals so handled.

7. When complete declare Exp Stability RD complete.

LRH COMMENT 15.5.72—

“Well done.

She’s very critical. Note the ruds added “

The PTS RD is extended for several sessions. Then pc goes to MO with heart palpitations.

MO MEDICAL REPORT 21.5.72—

\*\*Heavy heart palpitations B/P 145/70.

Did a Touch Assist, brought it back down to normal 120/55.

Heavy gas pains on left side of chest and left arm alleviated by Touch Assist.

---

\*FOOTNOTE: This was a D of P type Interview. When this comes up in the middle of the PTS RD like above this could normally be done in session by the auditor. (The why and handling steps are done in HCO or by the D of P per C/S Series 76.)

\*\*FOOTNOTE: Blood Pressure (B/P) is measured as the maximum pressure the heart exerts through the blood system (the top figure) and the minimum pressure the heart allows through the system (the bottom figure).

It is measured as so many centimeters of mercury. This is a method and unit of measuring pressure originally used by physicists.

189

For the last days when going to sleep heart palpitations started, and last night got so bad she could not sleep.

Given Calcium and Pantothenic Acid.

After the session on the 21.5.72 the auditor writes to LRH, along with his session comments and C/S.

AUDITOR’S NOTE 21.5.72—

Dear Sir,

Please note that 2 out of 3 terminals in this session were not this L/T terminals but suppressives of whom she was *reminded* by PT Restimulators.

This may have been an error to run.

Definite data not in PTS Pack. *Is this an error?*

AUDITOR’S COMMENTS AND C/S—

Thought you should see this one. She had had the heart palpitations which she was discussing in last session which occurred when upset by (\_\_\_\_\_ ) last year.

As she is in auditing—PTS RD, I suggest:

1. PTS RD Corr List, “In your recent auditing”. Assess and handle to F/N list.

2. Verify remaining terminals and run if indicated.

LRH COMMENT AND C/S—

“Error here in running ‘reminded of’ in past for a PT terminal. Has recoiled on the pc.

The C/S is correct.

Add a 3 May 72 PL to the list soonest. (LRH added to the 13.5.72 Pgm.) Ruds probably out.”

The auditor does the C/S to a good result. The Med Report for the day says pc is feeling A-OK.

AUDITOR’S COMMENTS AND C/S—

The BPC was an implant stirred up while running one of those past SPs.

This has been repaired—the engram in restim was R3R Tripled. The PTS Corr List was done to F/N list. Per her origin she is certain about not being PTS.

Suggest we let her have that unless *any* sign of rollercoaster appears.

1. HCO PL 3 May 72 in full. (+ L&N, up to 1st Dynamic formula to be done herself.)

2. 2wc “How do you feel about Ethics?” to F/N.

3. 2wc “How do you feel about your PTS RD?” to F/N.

LRH COMMENTS AND C/S 23.5.72—

“Your C/S is backwards. Finish a cycle (PTS in this case) before entering another.

1. 5 April 72 PL D of P. Handle anything that needs it on PTS RD.

If okay to auditor:

2. 2wc ‘How do you feel about your PTS RD’. (Be sure it’s ended.)

3. Declare.

190

Then next step do 3 May 72 PL.”

The above C/S was done to good result. The auditor then wrote an Exp Dn program.

EXP DN PGM BY DN SPEC 23.5.72—

0. Hav = “Notice that”.

“00. Needs a 3 May 72 PL” added by LRH.

1. Clear all terms.

2. Sanderson RD.

3. PT Environment handling.

4. Auditor’s auditing handling.

5. Emotional Stress WF handling.

6. LXes 321 handling.

7. OCA.

The 3 May PL is done and the pc has a huge win.

AUDITOR’S COMMENTS AND C/S—

Well the 3 May PL produced a clear list Q and an origination on a huge win —“an OT thing”. Should be identified if possible.

1. D of P “What happened in your recent win?” for data.

2. Declare if one is in order.

3. Do steps 1, 2 and 3 of the Pgm.

The pc has D of P Interview and declares Mest Universe Release. The pc takes a new OCA.

OCA GRAPH 25.4.72—

LRH COMMENT—

“It’s changing anyway.”

The Sanderson RD is started and continues very well for several sessions.

AUDITOR’S COMMENTS AND C/S—

191

There was still charge from the bypassed win and some other points. Did a GF—still hot—and cleared all up.

The one thing she most wants handled is “This Evil Purpose I’m sitting on”, BD 2.0 to 1.8.

Suggest:

1. L&N “What evil purpose has been missed?”

2. R3R Triple.

3. Hav.

LRH COMMENT—

“Very well done, you’re doing better now.”

The next session goes to pieces. The auditor gets off on a list correction and the pc gets very upset and red tags at the Examiner. The auditor sends the pc to the D of P for a “What did the auditor do” to cool her off.

LRH COMMENT AND C/S 31.5.72—

“Same auditor on this pc. They both have to confront it.

I can’t really make it out. Can’t read some of the Admin and I’m not sure what went on.

Change of procedures? I don’t know where it came from.

The C/S for the session, 2nd session, doesn’t exist so I guess you were C/Sing in the chair, a grave fault.

This sort of reaction comes from list errors.

Essentially she thought you were DENYING HER AN ITEM.

She’s not up to any of this.

1. R-Factor: I have some questions here to solve the upset.

Were you being denied the item?

Were earlier wrong lists restimulated?

Do you have a withhold?

Wouldn’t the auditor listen?

Some other upset?

You didn’t agree with something?

Was your list suppressed and invalidated?

2wc the result E/S and handle.

2. What part of the session could you confront?

Repetitive, not 2wc to F/N, VGIs.

3. Havingness.”

This C/S was done to a moderate result but the lists were never really picked up and handled properly.

The Exp Dn Pgm was continued but soon the pc was in trouble.

AUDITOR’S COMMENTS AND C/S—

192

Wow. Seems she's gone past the point where she was cured and well and has developed a lot of BPC on inval because Dn was continued and she feels it was "complete" some time.

Whole session was getting off BPC on being O/R as a case and protesting further Dianetics.

1. Fly a Rud.
2. Rehab big win in Dianetics recently (Mest Universe Release).
3. Get point where she realized she was no longer ill. Rehab.
4. Declare Exp Dn Completion.

LRH COMMENT AND C/S 3.6.72—

"No. Off Exp Dn Lines.

*TO CL XII C/S*

This pc is having list trouble by reads 2 sessions back. Early list restimmed read. They're not repaired.

Please have a XII handle her lists, rehab any win and remove from auditing lines."

LRH PROGRAM 4 June 72—

"Is exhibiting wrong list behavior in recent sessions, read on 'earlier wrong lists', handling was quickied. Pc still upset.

Also pc finds only Org terminals as SPs. So she is not PTS, she is ....(see Exp Dn Case C).

1. Find and correct all earlier lists. See LRH C/S of June 72. Don't *not* do it! Auditor already flunked it.

2. 3 May 72 PL—2 lists.

3. L-3XDn RD.

4. Find all Ev Purps gotten off on L-10 or in recent sessions, even those dated and located and list them from earliest one. R3R Triple. Get them all.

5. Locate any new ones. R3R Triple.

6. PTS Corr List and additional + Can't Have.

7. Metalosis.

8. OCA."

LRH C/S 4.6.72—

"See Pgm.

Locate all uncorrected lists and correct item as she exhibits wrong list behaviour in sessions and is very upset on the subject.

1. Correct any and all wrong lists from earliest forward.

Do nothing else until action is complete."

The List Correction is fully done by a Cl XII Auditor and the pc has a huge case resurgence. Pc attests Review complete.

SUCCESS STORY 16.6.72—

193

This was definitely the best Review I have ever had.

It changed my life greatly and gave me some answers I have been looking for for a long time.

It is deeply appreciated.

At this point the LRH Pgm is continued by an Exp Dn Auditor. This is still in progress at this point in time. The last OCA to be taken is on 22.7.72.

PC'S LAST OCA 22.7.72—

The present Pgm being worked on is designed to raise the low Trait H point.

TOTAL NO. OF SESSIONS TO DATE: 38.
