I. . Chief New York WW
Int Investigations Officer WW

20 Sept 1968

Dear Dave,

I'm writing to you in the hope that by combined effort, we can bring some understanding into intelligence there in New York

Enclosed you will find a copy of a report sent in by Emily Becker, which I see has been routed through you, and I'll lay out exactly what the difficulties are. First I'll give you a quick run down on how Intelligence works.

We have two main cycles as far as investigations go.

- 1) Some SP near an outer org starts attacking Scientology
- 2) The Intelligence Officer in that area Cables or telexes deputy Guardian WW and starts investigating the person behind the attack.
- 3) Intelligence Chief WW asks the report and expects to see regular reports on the SP being investigated
- 4) A file is opened in both the outer org and in WW and the case goes on the CIC Board as a project
- 5) The Investigation is carried on until the crimes are found and it is handed over to prosecutions to get the SP put in a Government accommodation

or

- 5) The SP gets scared and shuts up and Intelligence Chief WW directs the case to be dropped

The second type of cycle is as follows

- 1) Intelligence Chief WW on going through the files sees a possible source of future attack and directs an Investigation to start on that person or Group.
- 2) a file is opened and it goes on the CIC board
- 3) Intelligence Officer in that area starts investigating and we get the goods.

- 4) The whole thing is turned over to PRO for action and exposure, or to Legal for Prosecution.

Among these we have smaller cycles of action such as, "Get me a Copy of Such and Such a book" or "Was this SP ever trained in your org."

At the same time all this is going on, intelligence should be going through newspapers, magazines etc. and taking clipings on Medical, Psychiatry, Mental Health, Government, world finance and Banking, Odd Ball self help groups and filing and cross filing these to locate SP's. And cross filing declared sp's in the area by connections and frequency of names, to see who the ringleaders are in that area so that he can be prosecuted for crimes. But an investigation is NEVER NEVER begun until 1) an SP attacks Scientology (threatens to sue, goes to his representative about us etc.) or 2) the Intelligence Chief orders an investigation to be started.

Now lets take Emilies report apart, name by name

Smith I have never heard of this guy, I don't know why he is being investigated or what he has done. We received no telex that he had attacked us and Intelligence Chief has not ordered an investigation on him.

Wilke I don't know who this guy is either, but from the report it looks like he is a job for Public Ethics, Registrar and ARC Break auditor. He has not attacked as far as I know and we have sent no instructions on him.

Hernandez This is the craziest one yet. Chavero wanted to buy a meter to listen to Martians. As he apparently can pick up radio signals on one.

Hernandez is an associate of Chavero's. The whole damn thing was a public ethics matter in the first place, as I can't see a reason in the world why we should throw every nut we meet into jail.

Gotay Same as above

Welges Int Chief WW only asked Emily to pick up a copy of the book, or see if it existed. It was not an investigation.

As you may have seen on Brian's latest dispatch, we are going in on psychiatrists and that is an investigation so we expect to see reports on that.

Also Emily was officially assigned to work on Jacob Aspel, and yet I've seen nothing on him recently. Just reports on kooks and non-entities.

Will you please get this straight with Emily, and she might like to have this letter for her hat, although it is all contained in policy.

At any rate, thanks for your help. Give Emily my love and tell her that she investigates well, the main trouble is that she investigates the wrong thing.

Love,

Mo Budlong
