

## EXECUTIVE DIRECTIVE

ED 1802 INT

2nd June 1969

All Assistant Guardians  
All Bureau 2 Chiefs  
Bureau 2 Hnts.

STATISTICS

The current triple statistic of Bureau 2 is cancelled as being too unwieldy for the assignment of correct Conditions. The new Statistic is dual and the first one is the main one.

'Total Corrections Found'. If this stat is up then Bureau 2 is effective, Source of the attack is being located, PRO has the right target to aim at and the area will destabilize as source is spotted. This will also ensure future attacks are predicted and/or handled rapidly. If it's down then look out because the attack then looks like it's coming from "everywhere", B2 is playing patty cake (no confront of the area) and PRO and Legal don't know who to aim at.

The second stat is 'Total Incidents Found'. If it's up PRO and Legal will have plenty of ammunition if it's down well.....

'Total Corrections found' is the main stat because the right target with a little fire power is better than tons of fire power with no or too many targets.

And if both stats are up then hold your ears.
