OSA Network Order 54, Outline Factors in Attack.
OSA Network Order 18, Why Government Attacks Religion.

PROGRAM INFORMATION:

In the last year the Greek Orthodox Church ARM activity in Greece has escalated to a level which warrants immediate attention.

This recently culminated in an international ARM conference held in November 1993 where the Orthodox Church set out their intended strat to classify new religious movements as a State concern and thus force the State to partake in formulating and adopting legislation that will curtail the activities and free operation of new religious movements in Greece.

Up until now the government/State has refused to involve itself in the affairs of religions unless they break the laws of the land and to this degree they have maintained that the 'problem' of new religious movements be dealt with by the Orthodox Church as it is a religious matter.

The Orthodox Church, via their main ARM advocates, the Archbishop of Greece (Seraphim) and Pro/Sect Information I/C (Alevizopoulos), are engaged in a plan of spreading false reports and focusing attention onto new religious movements as a danger to youth and the society at large, by attempting to classify new religious movements as a social threat that needs to be addressed by the state.

This attack in Greece is being fuelled and mobilized from a foreign source point and the instigator of the Greece ARM offensives which goes as far back as the 80ies is a body in Germany definitely tightly connected/affiliated to the Lutheran Church.

This coordinated multi-bureau program is now written so as to handle this situation.

PROGRAM PURPOSE:

To get the ARM situation under control in Greece while PR activities are being created, allies are being made and legal is working out on getting the Church recognized as a religious group.

MAJOR TARGETS:

1. Alevizopoulos and Seraphim investigated with crimes exposed.
2. Interfaith activities created which will unite religious groups together making it impossible for the Orthodox Church to attack this religious body.
3. Government comm lines created so as to be able to predict future government attack on religions.
4. PR activities being done in the community and theta media being made that will DA the enemy lines about the Church and/or religious groups.
5. Religious recognition application filed.

PRIMARY TARGETS:

1. DSA Greece is responsible for getting this program done.

DSA Greece

2. DSA Greece and DSA PR Greece are to execute their respective targets to a done.

All with targets

3. All concerned with the program are to read and word clear the following references:

PR Series 18, How to Handle Black Propaganda.
OSA Network Order 15, Black Propaganda.
OSA Network Order 54, Outline Factors in Attack.
OSA Network Order 18, Why Government Attacks Religion.

All with targets

VITAL TARGETS:

1. Do not let anything cut across the full execution of this program until the situation is handled.

DSA Greece

2. During the execution of this program, keep coordination in

at all times with your DSA PR and with the different Invest, PR and Legal terminals at OSA EU.

DSA Greece

3. In case of any slow or bug, get a 302 debug done immediately to put this program back on the rail and rolling.

DSA Greece

OPERATING TARGETS:

1. List out the addresses and phone numbers of any religious groups in Athens and immediately start contacting these groups. Set up meetings with them and get out of non-existence. See where they stand at in regards to interfaith activities.

DSA PR Greece

2. Get these meetings held on a weekly basis with at least three new allies created every week. Ensure you get referrals to Orthodox priests who we can meet with and ally and get the names of other religious leaders we should meet with in order to expand our comm lines within the religious community.

DSA PR Greece

3. Reestablish contact with Orthodox priests they have been in comm with in the past in order to get their help in handling this ARM attack, while at the same time keeping the religious groups united.

DSA PR Greece

4. Once comm lines have been established with a number of groups who are interested in interfaith matters, set up the first interfaith meeting to unite the new religious movements and all advocatists of human rights/religious freedom.

DSA PR Greece

5. Propose a mini-program which will firmly establish this group, and get it approved by the PR Pgms Execution Officer OSA Int. Immediately after the first meeting, set a date set for the next meeting and close a representative of each group in attendance to bring one new person to the next meeting.

DSA PR Greece

6. Get a naming survey done to find a name for the interfaith

group. Get a name that would symbolize unity and openness for all religious groups.

DSA PR Greece

7. Do a positioning survey to find out what symbol would best represent this interfaith group.

DSA PR Greece

8. In coordination with the Interfaith Coordinator OSA Int, get specific terminals who have strong interfaith lines (Bordelon, Melton, OPA DC [Office of Public Affairs Washington, D.C.] lines, Canada lines) briefed on the KYP report. Find anyone who has comm lines to the Patriarch of the Greek Orthodox Church to contact him and get him briefed on the anti-religious viewpoint of Alevizopoulos/Seraphim. Get his agreement to do something to handle them.

DSA PR Greece

9. In coordination with the Interfaith Coordinator OSA Int, get allies internationally contact the Patriarch's office of the Greek Orthodox Church and brief whomever they have a comm line to about the concern raised by Alevizopoulos and the KYP report.

DSA PR Greece

10. At the second interfaith meeting, brief all religious groups in attendance on the implication of the KYP report. Show how Alevizopoulos is trying to create a rift between the Orthodox Church and other religious groups and why he should be removed from his post. Get them to originate what they can do to handle this situation. Find out what comm lines they have which they could use to handle this situation.

DSA PR Greece

11. Get their originations pushed through to done.

DSA PR Greece

12. If no Catholic or Jewish or other mainline churches initially become part of the interfaith group, find a comm line to these religions, meet with them and show them how they are also attacked in the KYP report. Get them to take actions against Alevizopoulos and put pressure on the Greek government and the Patriarch of the Orthodox Church to get this handled.

DSA PR Greece

13. Meet with politicians who could help on this matter such as the Minister above Human Rights, the Minister of Foreign Affairs, the Minister of Education, etc, and brief them on what Alevizopoulos and Seraphim are trying to do. Get them to take a stand on the issue and raise the matter with the Patriarch or with another terminal in the government to ensure the government does not get involved in religious matters. Establish such a comm line to these terminals so that they will report information on any new laws being pushed to "regulate" new religious movements and will contact you should they hear of such laws.

DSA PR Greece

14. In coordination with the A/PR Aide OSA EU, get onto the EU interfaith comm lines to get them briefed on the KYP report. Get them to put pressure on the Patriarch of the Greek Orthodox Church in regards to this KYP report and Alevizopoulos and point out how anti-religious it is.

DSA PR Greece

15. Concurrently, survey the community to find out what community activities the Church should be involved in that would create a religious image for the Church and that would DA the enemy lines that Alevizopoulos and Seraphim have been spreading on "cults" over the past months.

DSA PR Greece

16. In coordination with the PR Pgms Execution Off OSA Int, write a PRAC program based on these results which you can execute with the help of volunteers. Ensure the program includes targets to hold events and get media made regularly.

DSA PR Greece

17. Execute this program.

DSA PR Greece

18. Get Public Record Research done on Seraphim and Alevizopoulos. Get this fully researched, including listing the friends and opponents with their names and functions, from newspaper articles, brochures, debrief of visits etc. Include studying the articles which were printed about the KYP report and note down the names of scholars and constitutionalists who expressed themselves against this report. Report the results to the Public Records Research I/C OSA Int.

DSA Greece

19. Get a criminal mind analysis done on Alevizopoulos.

DSA Greece

20. Get a PI to investigate Seraphim and Alevizopoulos as to their personal activities to find out any crimes they are involved in. Ensure that any connections with ARM terminals in Germany are well documented.

DSA Greece

21. Compile a DA pack on Alevizopoulos using the documentation available. Include the data about the people he invited to the Nov 93 conference which will prove he is dealing with very doubtful people whom the Orthodox Church would want nothing to do with. Include the KYP report and opinion leaders who spoke out against it.

DSA Greece

22. Through public record research and debriefs of visits, find the right terminals and lines in the Holy Synodus to put the DA pack on to get this ecclesiastical body to conduct their own investigation into Alevizopoulos, and get the DA pack given to these terminals.

DSA Greece

23. Utilize the data gotten on invest lines to expose the criminal activities of Alevizopoulos and Seraphim.

DSA PR Greece

24. Use allied/invest lines within Germany to determine the exact extent of coordination/activity ongoing between Germany and Greece and its predicted path/key figures.

DSA Greece

25. Coordinate with the Invest Off Germany on the execution of target 8 of the Lutheran Estimate program covering the investigation and discrediting of the president head of EZW (Evangelical Center on Ideological Questions of the German Lutheran Church.)

DSA Greece

26. Once done, in coordination with the Invest Off Germany, get this exported to Greece to get support and allegiance lines cut from the Orthodox Church.

DSA Greece

27. Set up lines in Greece into the ARM group so that we can identify those involved and work out individual handlings.

DSA Greece

28. In coordination with the Invest and Pred Chf OSA EU, get the Greek intelligence (KYP) Report translated so that it can be exposed and used internationally to embarrass the Greek government and those in the Orthodox Church who are behind this.

DSA Greece

29. In coordination with the A/PR Aide OSA EU, get the KYP Report brought to the attention of international religious bodies, EU Human Rights Commission, the Catholic, Jewish and other mainline Churches attacked in the report, with flanking media to as to expose this fascist trend.

DSA PR Greece

30. Get legal research done on anti-proselytism laws in Greece and how this can be challenged (off our ground if possible - ie, via another religion), to cancel it and then obtain religious status for Scientology in Greece.

DSA Greece

31. Get a full research done on how to register a religion within Greece.

DSA Greece

32. Once the data about the religious recognition is gotten, in coordination with the EU/Italy Legal Pgms Execution I/C OSA Int get a program written up to get this done.

DSA Greece

33. Get the religious application filed in Greece.

DSA Greece

34. Inspect the Athens Mission, handle any outnesses and get the Mission up to 100% Legal Ruds In.

DSA Greece

35. Review the results obtained in this program and based on that, reprogram.

DSA Greece

PRODUCTION TARGETS:

2 months

1. Interfaith group established and functional.
2. Alevizopoulos and Seraphim crimes found and exposed.
3. Religious application filed.
