GREECE RAID HANDLING PJT: 558 PGN

On 9 June 95, the mission of Athens was raided by Prosecutor Aggelis assisted by the Security Police and who then called in the Finance Police. Vitamins, ethics files of the staff members, DSA files, valuable docs were seized by the Prosecutor and the financial records were seized by the Finance police.

This raid happened after a series of 3 weekly satanite TV shows organized by reporter Michalopoulos on TV Taletora, a TV station known for conveying extreme Rightist ideas. Priest Alevizopoulos and ex-Scientologist Anne Touloupi participated to one of the shows. The content of the TV shows were taken up in enemy newspapers Apogeumatini, Nei Antrooi and Eleftheri Ora. These media were built up on the unhandled PTS situations of staff members and publics whose parents had been stirred up by priest Alevizopoulos to the point they accepted to appear on TV and do criminal acts as coming into the mission and destroying the mission property.

In the media, the message being pushed was that the government should act and reporter Michalopoulos had himself written a letter to the Prosecutor demanding him to start an investigation on KEFE. That Athens mission should be raided or will be raided was rebated in these media.

At the same period a highly mediatised trial started about 3 guys who had committed murders while allegedly practicing satanist rituals. When this trial arrived to the end a new highly mediatised raid took place, conducted by the same Prosecutor, in a group of homeopathic doctors dealing with Indian practices.

After the raid, as far as we know, Prosecutor Aggelis did not work on the case. The Finance police interrogated staff members and publics in order to determine if the association was conducting activities in accordance with its statutes and if these activities were taxable. The results of their investigation is not known yet and they are supposed to report their findings to the Prosecutor. The next step in this investigation is for the Prosecutor to bring criminal charges or to dismiss the whole matter. He has no time limit to do it. On the other side the Finance Police could coordinate with the Tax Office to get a full tax inspection done on our records and then get tax assessments issued.

Inspection of the legal rudiments in Athens mission revealed that the corporate rudiments and the tax rudiments had been neglected. It showed also that the admin of the Treasury of this mission was off policy mainly caused by arbitrariness from Legal.

Self-recorded TV shows on various subjects as suppression, communication, assists, study tech, are regularly running in 2 local TV stations outside Athens and give good results on div 6 lines. They have to be run also in Athens where almost half of the Greek population is located.
