ORDERS QUERY

30 OCT 89

Dear Sir,

Order and issuer:

Assignment to pigs berthing by CO PAC. My orders query was disapproved by CO. PAC.

Reason this would cause loss or be destructive:

Late last night, I received an order to move to pigs berthing based on having a very messy room when an inspection was done yesterday. I have written a query on this order based on the fact that no ethics gradients have been applied (I have never been given notice that I flunked a berthing inspection). This is in violation of the following:

Per FO 3134, 23 FEB 72,

"THE CLEANLINESS OF BERTHING IS THE RESPONSIBILITY OF BERTHING I/C.

HE ENFORCES THIS BY:

1. ETHICS ACTION ON OCCUPANTS TO BE FORWARDED TO FMAA ON EVERY (UL) OCCASION THAT A BERTHING IS FOUND DIRTY, SMELLY, DIRTY CLOTHES LYING ABOUT, WALLS AND FLOOR UNCLEAN OR

2. TRANSFER OF AN OCCUPANT TO LESS DESIRABLE BERTHING IF THE CONDITION CONTINUES. " LRH

The room was cleaned last night. The only situation that I need a couple of days to handle is to get a long bar installed in my room so that I can hang clothes on; there is a store that sells these near Normandie St. and I will purchase one and get it installed within 48 hours.

Solution recommended to handle the problem:

That the pigs berthing assgt be cancelled as an incorrect ethics gradient per the above and that I do fully get the room handled. (It is handled now except for a proper rod to put the clothes on as above). It can be inspected now to verify this.

This is ok.
