

**B580912**  
**Staff Auditor Hats**  
**POST CASE ANALYSIS ROUTINE**

When pc has been taken to the Director of Processing or case analyst (third party enters auditing picture in any way) the auditor must then RE-ESTABLISH THE AUDITOR with

1. Two-way comm on analyst person.
2. "Who would I have to be to audit you successfully?"
3. "What am I doing?"

This is to avoid pc transferring to case analyst as auditor and then not coming back to session.

This is also done when pc has coffee shop auditing between sessions.
