AUDITOR'S RIGHTS

LISTS

When an auditor whose C/S told him to list "Who or what" or any list question finds that the list question does not read, the auditor MUST NOT list it.

When doing a list ordered by the C/S it is assumed that the auditor will test it for read before listing and that he will NOT list an unreadable question. (A read is an actual fall, not a tick or a stop.)

LIST TROUBLE

When an auditor has trouble doing a list and getting an item it is expected he will use a Prepared List like L4B to locate the trouble and handle it.

As it is very hard on a pc to mess up a list it is expected the auditor will handle the situation then and there with no further C/S directions.
