C/S Series 74

TALKING THE TA DOWN MODIFIED

The expertise of talking the TA down should be preserved. It is a skill.

But we have had high and low TAs solved for nearly a year and don't have to talk them down anymore as a constant action.

Auditors SHOULD know how to do it, and then use it as a rare action.

The right way to handle a high TA is to:

Do HCO B 24 Oct 71, HCO B 12 Nov 71, HCO B 15 Feb 72, each named FALSE TA if it has not been done by the auditor on the pc.

THEN if TA is high don't talk it down or do unusual solutions, do a C/S Series 53 or a Hi-Lo TA Assessment and handle. The Int-Ext Correction List is done as indicated and so is the Word Clearing Correction List.

As far as a C/S is concerned, when the pc's TA is seen to be high at session start, he should order as follows: "Check as per False TA HCO Bs" then when that is done he orders "C/S Series 53 Assess and return to me". Or "Hi-Lo TA Assessment and return to me". He then rapidly C/Ses the required actions.

He should have a standing order with all his auditors:

IF TA IS HIGH OR LOW AT SESSION START DO
NOT CONTINUE THE SESSION BUT SEND FOR A C/S.

An auditor should not in fact talk a TA down, we know now, as he may be auditing over an Out Interiorization Rundown, either not done or botched.

It therefore saves time if other auditing is not done when the TA is high.

In general practice it will now be considered standard for an auditor, Dianetic or upper class, to not start a session over a high TA but to call for a C/S.

And where there is no C/S it will be considered standard for an auditor, seeing a high TA, to at once do a C/S 53 Method 5 (assessing it all), and then handling.

THERE ARE EXACT REASONS FOR A TA BEING
HIGH AND THESE TODAY ARE EASILY HANDLED.

There is no need to talk a TA down. It is faster to directly locate the reason it is up.

Smoothly handling such situations is the mark of an expert.
