Ex Dn C/Ses  
Ex Dn Auditors

***Expanded Dianetics Series 21***

*Ref: Ex Dn Tape Lectures and Case Histories.*

**EXPANDED DIANETICS  
DEVELOPMENTS SINCE  
THE ORIGINAL LECTURES**

Since the original lectures on Expanded Dianetics and Case Histories were released several HCO Bs were issued under my name which I did not authorize. These have been cancelled.

I thought I'd better cover the developments since the original materials and clear up any questions or conflicts that may have arisen over the unauthorized HCO Bs.

**EXPANDED DIANETICS PROGRAMMING**

Expanded Dianetics programming is not rote but each programme is laid out for that individual pc taking him from his current state to a shiny product.

The programme is worked out from data gotten by FES, OCA, Chart of Human Evaluation and D of P Interviews.

The product of an Ex Dn complete pc is visible by OCA, Chart of Human Evaluation, and pc satisfaction in having handled what he wanted handled.

Endless Ex Dn to no product occurs only when the C/S violates the basics of Ex Dn programming as covered in my tape lectures and the Case Histories, when the pc is run on actions that he doesn't need and aren't reading or when the pc was not set up for Ex Dn in the first place.

**EXPANDED DIANETICS SET-UPS**

Usually a C/S Series 53RF and a list correction are needed set-up actions if they haven't been done. A thorough C/S-1 and full word clearing are vital.

A Drug RD must be done or completed before Ex Dn is done or it will fail. This includes Objectives. You can't do Ex Dn until Drugs are all handled.

**TROUBLE ON ENGRAMS**

The pc who cannot run engrams has misunderstandings on the commands and terms of R3R and Dianetics, or it's drugs. The pc *will* be able to run drugs because that's what he's stuck in. He'll run those automatically as long as you've done the necessary Word Clearing.

Pcs who won't go backtrack are druggies or in recent shock of having died. This is handled by a thorough Drug RD and if necessary the usual Dianetic backtrack remedies As and Es double-assessed. Ss and Ps could be checked as well.

**LATER EX DN RUNDOWNS**

*Class VIII C/S-6* list is useful in running out past bad auditing. It is fully covered on Tape 1. Other Class VIII lists are not used as you won't get anywhere running AEIs from a significance.

*Intentions* in AEI Treble Assessments are run in order of read. Interest is not checked. As intentions exist on all 3 flows you could list for the intentions on the other 2 flows after you have listed the intentions connected with and run them R3R Triple. You can only list and run intentions connected with a terminal or mass or somatic never a significance.

The R3R commands are: *F-1* "Locate an incident of another causing you to have the intention \_\_\_\_." *F-2* "Locate an incident of you causing another to have the intention \_\_\_\_." *F-3* "Locate an incident of others causing others to have the intention \_\_\_\_."

Good Intentions are never run. Never. The cure for a pc who is run on a good intention is a C/S Series 53RF. The cure for the auditor is to fully define the words: good, worthy, positive, pro-survival, evil, bad, unworthy, negative and contrasurvival. Then have him re-study the related materials. If it recurs, get him audited on a 3 May PL and Ex Dn.

*R3R all E. Purps* culled from the folder is done as a first action in Ex Dn.

Subsequent E. Purps brought up in sessions are noted and R3R'd later on in the programme before any PTS RD is done.

These E. Purps have to be verified as to wording and checked for read before running, but not interest.

Considerable charge can be bypassed if E. Purps are missed so this action is thoroughly done.

*R/S Handling*, also called the Responsibility RD, is done as OCA right-hand side handling. A list of all R/Sing statements is made then each taken up. The idea is an R/S will occur in connection with a *terminal* which will read when checked, and that's what you want to run. The R/Sing statement itself will often mention a terminal. If not the auditor can do a brief TWC to find out the terminal connected with the statement.

Once the terminal is obtained the auditor lists (L & N) for the E. Purp F-1, 2 & 3 R3R Triple on each after it's listed.

If no terminal can be found the auditor would have to L & N for the intention of someone who would (R/S statement).

*The Wants Handled Rundown* is shown in Cases B, C and F. The important points of the RD are to run it as a "wants to get rid of", *not* a "wants to achieve" and to complete each thing the pc wants handled before going on.

Handling of each thing the pc wants handled is dictated by what the "thing" is. A somatic is run R3R Triple. The intention connected with it can also be run. An intention is run R3R Triple. If it's a terminal, L & N for the intention connected with it and run it. You can also L & N and run the intentions on the other 2 flows. If it's a condition L & N W/W would have it then list for and run that terminal's intention. If it's a doingness L & N for the intention of someone who would do that and run it.

Additional handling could be done such as PSEAIs double-assessed R3R Triple, handling it as a problem by finding and running out the prior confusion or tracing it back to the earlier problem it is a solution to and running that R3R Triple. Difficulties on this RD stem from not getting *the* thing the pc really wants handled which will read very well and run like a bomb, or errors in the L & N or R3R or out ethics holding the condition in place.

252

*The Multiple-Flow E. Purp Rundown* is a very high-powered action which must be precisely done. Its use is covered in C/S Series 22 and Case C. It consists of F-1: L & N "What Evil Impulse have others had toward you?" R3R Triple. F-2: L & N "What Evil Impulse have you had toward others?" R3R Triple. F-3: L & N "What Evil Impulse have others had toward others?" R3R Triple.

**SUMMARY**

An Ex Dn programme is designed for an individual. C/Sing and auditing are done to achieve a product.

When you're paralleling the mind the meter will be reading like mad, the pc will

be wildly interested and the results will follow big and fast.

With this broad change in Ex Dn I recommend that you re-listen to the Ex Dn tapes, review *DMSMH* and *The Original Thesis* as well as the '63 Time Track and R3R materials and re-study the Case Histories working out why each C/S and pgm was done. Better yet do a thorough Ex Dn C/S Course.

I'm counting on you to really apply these materials and expect to see lots of good results.
