The pc is C/Sed for 2wc Triple or Quad and R3R Triple or Quad on each item depending on whether the pc is running Triple or Quad.

This assessment can be done by Level 0 Auditors untrained in Dn as part of Grade 0, 2wcs only. It is best done both 2wc's and R3R and in any case the R3R must be programmed and done at a later date.

To run this assessment an Auditor must first starrate and drill it until it's smooth.
