DIANETIC CLEAR ATTESTS

HCOB 1 Dec 78 PROGRAMMING THE DIANETIC CLEAR  
FOR HIS NEXT STEP)

Since the HCOBs on Dianetic Clear have come out there have been many attestations and many cases unbugged, and there will continue to be more Dianetic Clears as pcs continue to get standard processing. This bulletin gives some additional guidelines to help smooth the lines and prevent needless stops for the person who has made Dianetic Clear. It will also help handle the person who hasn't made it so that he may achieve all the gains available to him.

### **UNACKNOWLEDGED DIANETIC CLEARS**

A person who has reached the state of Dianetic Clear without it being acknowl-

edged can run into difficulties afterwards. You may find that he's been in ethics trouble or had a low OCA or poor case gain since that point.

It's not only lack of acknowledgement but also invalidation by running certain processes that a Clear wouldn't respond to, such as engrams, or continuing to run the grades, or continuing Goals Processing, etc.

Also, with Clears and OTs who went Clear before they did the Clearing Course and never knew it or spotted it, bypassed charge results because they are running something which is trying to achieve what they have already achieved. It serves as an overrun .

In the case where a pc has this unacknowledged, invalidated Dianetic Clear state, you would most likely find a point in his auditing where it looks as if he had made it and a slump occurred afterwards. This point could have occurred many years back. If you don't see a resurgence of the state in an interview or session when the pc mentions when he went Dianetic Clear, the C/S would be to Date/Locate it. (Ref: HCOB 15 Nov 78, DATING AND LOCATING.)

### **ETHICS**

The fact that a person may currently be in ethics trouble is no basis on which to adjudicate whether or not he has achieved the state of Clear. It is not a criterion to be used to refuse to allow the person to attest. Clear is Clear. When a Clear is audited on R3RA, when the state is invalidated or goes unacknowledged, he can get into trouble. So apply this to your understanding and analysis of cases.

The MAA interview and A to J check on the Dianetic Clear Routing Form is not to imply he's out-ethics but will furnish the C/S with data on the case which may or may not come up in a D

of P interview. It will also detect the rare case where the person is attempting to attest in order to save money or for status reasons. In one instance it was discovered that the person routing through was actually a plant. These last examples are a very, very small percentage of the cases.

### **METER PHENOMENA**

When the state of Dianetic Clear has been acknowledged and any inval cleaned off the line, you'll see a very floppy needle at low sensitivity, an F/N that nothing can break up and, in many cases, a floating TA. A low sensitivity setting (I to 4) will be needed to even keep the needle on the dial, and the TA will be riding between 2.0 and 3.0.

You'll find in many cases that the meter now reads on the pc's postulates—i.e., a Clear's postulates read as a surge. A read therefore does not mean invariably "Yes" or that the question is charged. "No" can read if the pc says it or thinks it to himself as an answer to a question. (Ref: HCOB 18 April 68, NEEDLE REACTIONS ABOVE GRADE IV.)

Bear in mind that you might not get the above meter phenomena immediately on a Dianetic Clear where the state has been bypassed, even though the state is valid. In some cases the TA and needle can be packed up prior to Date/Locate of the exact time the pc went Clear. The pc may have out-Int to be handled. (The handling of out-Int on a Dianetic Clear is the END OF ENDLESS INT REPAIR RD, HCOB 24 Sep 78R, Rev. 21 Nov 78, Iss 1, Int RD Series 4R.) The person may still be hung up on misrun R3R or Dianetics run after he went Clear, or on some point of eval or inval that has occurred.

If, after a Date/Locate has been correctly done, you're still not getting the expected meter phenomena, a C/S 53RL assessed and handled precisely by the book and taken to F/Ning assessment will clean up any remaining charge. You'll then see a full resurgence of the state, with the pc VVVGIs, a floating, floppy needle at low sensitivity, and a floating TA.

### **PRIOR DIANETIC CLEARS AND KEYED-OUT CLEARS**

The definitions of Dianetic Clear and Keyed-Out Clear in HCOB 24 Sep 78, Iss III, DIANETIC CLEAR, replace the definitions in the Tech Dictionary. The person who attested to Dianetic Clear or Keyed-Out Clear in past years would not necessarily qualify as a Dianetic Clear now, though the chances are good he did make it. Any pc who has attested to Dianetic Clear or Keyed-Out Clear in the past should be called in for an interview and any necessary C/Sing to ascertain the state. This must be adjudicated by an AO C/S or by an org C/S who is Clear.

You will find that many of those who attested to Dianetic Clear earlier on actually did make it, and after confirmation of this they will need to be issued Clear certs and Clear numbers and be properly programmed to move on up the Bridge. (See HCOB 1 Dec 78, PROGRAMMING THE DIANETIC CLEAR FOR HIS NEXT STEP.)

Additionally, where the C/S knows of a case where it looks very likely, from folder study, that the pc went Dianetic Clear but it was unsuspected at the time and never originated, he should have such pcs also called in for confirmation.

### **THE PERSON WHO HASN'T MADE IT**

Where it is obvious that a person who has already been allowed to attest hasn't attained Dianetic Clear. give the pc a good R-Factor that the person handling the attest cycle didn't

have all the data. He must also be given the R-Factor that he is being programmed so as not to be denied any of the gains on the Grade Chart and so that he will be adequately prepared to do the OT levels. The C/S then programs the case so that this can occur and the pc is informed he should continue with his auditing program. In the case where the person wanting to attest clearly hasn't made it, you tell him so. There may be some state he did achieve that he may wish to attest to and he should be allowed to do so.

In both the above cases the person very likely has made some big gain or achieved a new ability, so validate that and give him an appropriate acknowledgement on his win .

### **NEXT STEP FOR DIANETIC CLEARS**

Use HCOB 1 Dec 78, PROGRAMMING THE DIANETIC CLEAR FOR HIS NEXT STEP, as a guide when programming the Dianetic Clear for his next action.

### **SUMMARY**

Keep in mind that a good percentage of the cases you see who by origination want to attest to Dianetic Clear will have achieved the state. If you follow these guidelines and apply the HCOBs on the subject, both those who have attained Dianetic Clear and those who haven't will be able to move on swiftly up the Bridge on the right gradient .

C/Ses should maintain their Ivory Towers and use the above data and all will go well in this area. It is already going well and this additional data will handle the various situations that have come to light.
