OT III ERRORS

Among OT III errors are:

A BT run on Inc I fails to blow.

There are three reasons:

- (a) Auditor is trying to run a cluster with an Incident 1. The right thing to do is date and get the character of the incident that made it a cluster and then run Inc Is on those left when it breaks up. Or get Dn auditing.
- (b) There is an earlier Incident I on the same BT. Find it and run it. The BT has a chain of them all by himself.
- (c) Another BT is copying the Inc I just run so it looks like it didn't blow. Failure to ever run Inc II can also cause a bog.

Routine Dianetic Auditing by a Dianetic HDC who is also on or above OT III using triple flows and LDN OT III also handles bogged OTIII Pre OTs.
