O.T. COURSE - SECTION TWO

24ᵗʰ April, 1967

(Note: These instructions are additional to those contained in the Clearing Course Instruction Booklet. All the rules for running and Admin. Instructions contained in that Booklet apply equally to the running of O.T. Section II materials. Read and study the Booklet again as well as these instructions and know them before doing any auditing.)

INSTRUCTIONS

There are 10 complete whole track tables.

But only 1 of each kind of GPM in each table. This is a complete "Run" or set (1 of each kind).

The sets belong to different entities. One finds the earliest set and runs it with care to stay in that set. Then one finds the next earliest set and so on for ten sets. Just as in running the CC GPMs.

The Electrical is the earliest in the run (set).

WHOLE TRACK TABLE

Set One

ELECTRICAL GPM
TOCKY GPM
BIG BEING GPM
HOUSE GPM
PSYCHO GPM
BANKY GPM
FORERUNNER GPM
* THE ARROW
* DOUBLE ROD
* WOMAN
* WHITE BLACK SPHERE
* HOT COLD
* LAUGHTER - CALM
* DANCE MOB
BASIC-BASIC GPM
BASIC GPM
THE COMMAND GPM
LOWER LP GPM
LP GPM
BODY GPM
LOWER BANK

Same for 10 sets.

* NOTE: There is no line plot for THE ARROW, DOUBLE ROD, WOMAN, WHITE BLACK SPHERE, HOT COLD, LAUGHTER-CALM, and DANCE MOB. You will be issued a brief description of each of these in your materials. They should be run when you come to them.

When ALL AVAILABLE charge is off the Whole Track Table GPMs, the student has completed Section II of the O.T. Course.

You must NOT :

    1. Run any bomb incidents.
    2. Tamper with any "past lives".
    3. Work around with the question of identity.
    4. Scout or fool around with your case.
    5. Look for or handle pictures.
    6. Look for or try to plot "new GPMs".
    7. Do any dating.

Just run the materials given. Do a List 7, but no "assists" on self or any solo auditing other than given in the materials or List 7 amended. To do any of the above seven can be fatal. We can only get you through safely and well if you follow explicit orders.

NEVER PROCEED PAST A NON-READING ITEM. To do so can be very deadly. Apply the rules for running as given in the Clearing Course booklet to get an item reading properly. A non-reading item means an error has been made earlier and must be straightened up. Or something is suppressing or occluding.
