NED for OTs Series 8

C O N F I D E N T I A L

BASIC PRINCIPLES UPON WHICH THE

NED FOR OTs RUNDOWN IS BASED

What you are really handling is a cross-influence of life, and the idea that "A" can assume the characteristics of "B". So now in trying to audit "A", you're auditing "B", but he's not there. It's the general cross-influence - somebody copies a picture, somebody copies a copy. It's all on the basis of the misconception that "All is one" and they can't tell whose picture is whose, or whose somatic is whose. You're basically trying to untangle this mish-mash. And what's amazing is that there are as many life beings as there are - there are lots of them.

In this RD, you're handling for the main part, Dormant BTs, so it's different that OT III. These are beings that wouldn't even run on OT III. On OT III or OT III Expanded you run those beings that can be run on the track. Because they do have some incidents in common, if you run the wrong one, it doesn't matter too much, you'll run the right one anyhow.

NED for OTs untangles the mish-mash and the cross-influences. You see them all the time on people in a behaviour or life basis. The old time faith healer themselves pick up the somatics from the patient. One time I did an emergency assist - I asked a pc - her feet were killing her and there was nothing wrong with her shoes - I asked "Whose feet are they?" - she said "My sister's" and that was the end of the sore feet!

Because of the number of beings it can get quite complex. It all starts out originally with a thetan obsessively copying the physical universe around him. And when he starts doing that, he sets himself up for copying other beings' universes and then he gets pretty confused. And the basis of it all is misconception. First and foremost is misconception of identity. That's actually what the RD is structured on (it's not structured on "he's got BTs, so blow off the BTs") it's structured on the disentanglement of confusions. This RD handles the entanglement of the BTs.

This RD runs best short sessioned, because the restim then has a chance to key out between sessions. And you've always got the 3 - 10 day key-out on your side.

You could call it the "Misconception RD" or the "I-am-you RD" or the "All-are-one RD"! This RD proves very conclusively that all beings are separate individuals, because the only thing that gets them into trouble, is a loss of their own identity - misownership of identity. They are definitely individual and separate beings. The Greeks got into a lot of trouble believing they were

all part of Zeus. There must be other implants on the track too that give them this idea. But it is now proven by this RD that people are individuals, so are BT.

The only thing that forms a cluster, is a misapprehension, agreement and shared experience. They are under the misapprehension that they are one being. What hangs it together is similarity of identity. This is the  $A = A$  that forms a cluster. Because they have got the same picture, they must be the same person!

Those are the basic philosophical concepts back of the RD, and they have never been tackled head on before!

For example, a misconception - "I am Mamie Glutz". How many crazy people in an institution think they are Napoleon? - some misconception! Sanity is the ability to recognize differences, similarities and identities - so misconception adds up to insanity.

Misconception is the key to any trouble a being gets into. This can be any error of matter, energy, space, time, form, identity or idea, believed by the individual to be fact.

By untangling this, NED for OTs produces some astonishing results.
