OK guys, you've handled your own creations or ones you were a party to. Now what about all the rest?

Don't say it has "nothing to do with me" because you were at a Static Point before the "Game of Gds" and you know damn well the whole GUM had "something to do with you". And, furthermore, if it didn't, you wouldn't be here on this level or have come up to it thru the Bridge. So let's get this GUM finished and get everyone into the Normal GUM. OK?

OT 14

So the first step is to increase the size of your "CASE" to include the U2s in U3. Your U1 is handled fully at end of OT 13, and should be free of any entanglement in the GUM. You can encapsulate - permeate the whole U2 and U3 without picking up any more "CASE" for yourself - OK? So now you are a Static-Thetan auditor. No "case" on your Control VP and no "case" in your U1.

Theoretically, you should be able to exteriorize your CVP in U3 or exteriorize your U1 from U3. But there's still a job to do. U3 is still there because of the U2s who haven't get the word or gone up the bridge. So let's handle the "hell" out of it - OK?

- 1) Do a PERM - PEN (permeation, penetration) of U3 and spot:
 - A) The Organized "n" Cross-Connections of U2s in it. They appear like black lines, terminals, like a spider web or many spider webs. They are like "plugs" of the SN (Super NOTs or Excalibur) Case but stuck on the U3 by the U2s still "down the bridge". (It's just ENTHETA).
 - B) That's what to audit. That's where your TR0 starts to pick up the bottom sticky layers of the U3 "plugs". In running, they may go into U2s, but most of the U2s are totally interiorized into U3. So it's easy.
- 2) Make a list of what types of Persons, Places, and Subjects you want to help. (From anywhere, from anywhen in your existence).

- 3) Do (A) Persons, then (B) Places, then (C) Subjects.
- 4) Take the Biggest Reading most interest, VGIs one of (A), (later do B and C)
(There will only be one item which contains or summarizes all LFBD F/Ns).
- 5) TR0 - All GUMs.
- 6) "Thetans connected to" (item)?
- 7) Handle as per Phoenix Rundown Steps.
- 8) Take best (B), do 5-7 on it.
- 9) Take best (C), do 5-7 on it.
