

OT14

Necessity Level

29 May 86

When a θn has exteriorized in a moment of necessity or urgency to protect his body or another person and caused some incredible effect (like lifting the body or "freezing" time etc.) it is actually the application of the OT13-14 C/O Cycle RD to a "Danger" Condition. The θn takes "Command" of all the MOCOs in his immediate area which comprise MEST and, by his native power, "commands" them by Tone 40 Intention. This is a "Clear OT" or "Static Key Out" action.
