

OT 17

Super Static RD

10 June 1986

(After OT1 6, Before OT17)

OT 14, 15, 16 - Notes

Negative Clone Cycle RD - (to obtain Ext and Full Perception of all, or Super Static).

To take a CVP and "BE" or EXIST, a Static Source has to 1st Create and Existence, then do the Condition of "Experience" of "being".

Existence comes from:

Highest Purpose - Creation of Effect.

Conditions comes from:

2nd Highest Purpose - Experience of Effect.

To Create Existence ($\Sigma U2$) one must not-is Source ($\Sigma \textcircled{S}$).

To create Conditions (or the basic one of a CVP) one must not-is Existence and Source of Existence.

These two NOT-ISes are what is covered on the Negative Clone Cycle RD or "Negative Static RD." ($-\textcircled{S}$)

$$\begin{array}{lcl}
 - \textcircled{S} & = & \sum_{\circ}^{\circ\circ} \\
 + \textcircled{S} & = & U1
 \end{array}
 \left. \vphantom{\begin{array}{l} - \textcircled{S} \\ + \textcircled{S} \end{array}} \right\}
 \begin{array}{l}
 \textcircled{S} \text{ (Super Static)} \equiv \Sigma U1 + U2 \\
 \text{Super Static and NOT} \textcircled{S} = U1 - \Sigma U2 = \text{CVP}
 \end{array}$$

What looks like NOT-IS going up is NOT-KNOW coming down.
