## Super Static RD

12 June 86

Xenu is the composite resistive personification of all the not-ised Source and Existence by the Static Thetans. Originally there was the purpose to improve the Quality of Static by comparison to comparable magnitudes. So:

- 1) There is Source - Beingness by comparison to Existence - Havingness. That was the "Creation of Effect" or highest purpose.
- 2) Then to do the 2nd highest purpose - "Experience Effect". Source and Existence as-is had to be NOT-ISED. Thus came about Conditions = Doing.
- 3) And the "Not-is" became Xenu.

The eXperience Entity of the Not-ised Universe.

He is the Composite of all Minus-Static or Not-is of Plus-Static despite his later Muling practices which were just a further Insanity of Clustering and Compositing.

Thus he fears to be "torn apart" or for the Static-Thetans to regain their states by confronting and handling their NOT-IS - which is part of him.
