19 June 36
OT 17 (session attached)

Did an experimental session on the Product, Arg, Esso points that were the 1st important ones to phase over the Game.

Found absolutely no charge on them and persistent Clean F/Ns and FTA @ Sens(2) between 4.0-3.0-solo can & 3.0-2.0-two cons.

The Certainty that the "Auditing dependence" is over is there - it ^(AUDITING) has moved into life & livingness - ~~the~~ "case" is U2 and it's audited by carrying out the steps of the process in L & L. Wow!

So there is CERTAINTY
and BEINGNESS.

And the ABSOLUTES that
are not obtainable are all
in the U3 or ~~P3~~-Static
U2.

The ABSOLUTE that
is obtainable is OT16
and the Super Static RD.

The old question: "And my
Brother's keeper?" can be
answered with full certainty
now: "No, and you better
not be his "keeper" or "holder".
You better free him!"

TKU EE! Ron!
