- **or a pc (dual being) plus a 3rd party greater or equal than thetan plus thetan.**

## SP-PTS-MECHANISM

### Contact with:

Auditor	Auditor plus pc are greater than BPC. <i>or</i> Auditor plus pc are greater than suppressive being/Cluster.	Pc goes up in tone. ↑
SP	A suppressive being/Cluster plus 3P-Tech are greater than pc. <i>or</i> Bank/pc plus 3rd-Party-Tech are greater than pc.	
		Pc goes down tone. ↓

---

Danger is that when PC is up and starts down – he is still causative enough to apply:

- **PTS-*pc* plus an organization are greater than Auditor** and bring government/group pressure against an auditor.

---

That's why you don't audit a PTS on anything except ruds and PTS-processes to find the SP and disconnect it from the equations.
