

Ron's Org
OTs. ✓

24 Sept 87.

False Bridges Strategy-Tactics

To give a strategic overview of the "battle of the Bridges", I can now fill you in on events that have taken place:

1. The TOC (Taken Over Church) was planning to open their B-E (Black E) False Bridge in Sept-Oct 1987 in 3 places: LA, EG, and MONTCH. We have known this for nearly a year.

2. We had a OTC convention on 19-20 Sept 87 to put Ron's Org's its Products into the light as the most powerful OT Group on the planet. We were rather "Fabian" before.

3. The RTC had a 42 man

org msn prepared and scheduled to come to EV and set up a new "OTB and above" org (near MON)

4. They chose the date of the 30th so we would not be around.

5. I got a 9 man OT mission prepared and briefed to meet them on arrival, observe, and get all data on their new set-up plus give them a few surprises.

6. They got wind of this and HELD BACK on sending the org mission in the last minute.

7. We won that round by DEFAULT.

8. They did ^{however} open the Ship Org (LA) for OTB on the 21st. And announced it in MWRIT on night of the 19th at a FWT event.

9. We had a very successful OT Convention on 19-20th with no problems from them.

Over 125 persons, OT Films, OT Music, Speeches, and Long-Distance Telephone Calls to the Convention Floor from OT Operations bases in Germany.

10. An independent "Independent" team of Observers (the Joe Van Stadter network) has pronounced us (Ron's Org) the best Organized, most Expanding and largest group of Sens outside the TOC.

11. Now the "catcher groups" will fade away and its only the Ron's Org & TOC which people will choose to go to.

12. I released ~~20~~²⁵ copies of the New "Sector 9" book at the event and sold them all. And a tape called "False Bridges" which allows people to evaluate by datums of comparable magnitude for the first time - BRIDGES!

13. Now you can see why I asked earlier for the data on people in training. This is known now.
14. The next important data we need for the strategy is the observations and data from people who go to the Ship for "new OTE" of the VOC. We already know what the processes are and what the end results will be - they are HORRIBLE and EXPENSIVE.
15. What we do not know is in what sequence they are being run and what intermediate physical and case effects they will induce in the pre OTs.
16. Don't be surprised if you hear about "relaxing in a tank of water", or "programming the ~~the~~ body", or "genetic-line processes"

or "being Dynamics" or that its "totally different from regular auditing", or "its high-tech processing involving thermodynamics and computer controlled conditions", and "assisted by outside high-tech, state-of-the-art, devices," because we already know that they will use these somewhere on their False Bridge.

17. What we are interested in is the reality-gradient of what is being told or done to the paying public, so we can counter it in the False-Bridges campaign.

18. Also don't be surprised if a lot of sworn-anti-TWCers or independents start flowing back into the Church a la Ziegl. It's part of the resting of that particular

False Bridge. (You see, it to been done before and it didn't make OTs, just tricked Ons ^{to be} stuck forever in the MEST Universe and unable to communicate their condition.)

19. We know this from finding them and freeing them with OT level processes, and taking notes of their debriefs on the methods used.

20. This FALSE BRIDGE never came yet into disrepute because there were none who escaped from it to tell the whole story - until now.

21. So, that's why we expect a LOT of people to go for it - they WANT it because they WANTED it then but couldn't afford it! It was one of Xenu's best shots!

Love, Capt Bell.
