SOL

- Source Missions -

All Source Missions have
a common denominator: Protecting
and furthering the Rights of Ours.

There have been other attempts
to finish off the Games Series,
Perfect Circles, and HEC 2 & 1. And
each has contributed. But never
totally succeeded. Until now.

The most recent was the LTA
attempt, but with no Free Zone or
Real Bridge, just OT demonstrations,
all of which were effective, but got

attributed to a Wrong Source -
Jesus as "God." His control
of the Planets' PR & Information
lines, Science and Mystic Societies,
and Religious Groups and
Political Parties gave enough
volume of false data to make
it a close thing even on voting
for "another time around." The
elimination of so many players
by making them into BSTs was
the key move. It "seemed" that
the "majority" had already left
the Games! So, TTA, the key
action is to free the BSTs so

they can this time vote and influence from a viewpoint of having been tricked once, but not ever again. Thus the 1st step of OT 17-33 is to free all the BSTs. The 2nd group to free is the Ons of all kinds caught in the "Implanter org" (or Excal Cases) TTA & LTA. Then the source of OT abilities will not be occluded. It lies not with "one On" but with all, in the Source Operations Level and the Rights of Ons absolute.
