The difficulty of doing an "OT" ability is directly proportional to how many Dynamics it involves.

A 13 Dynamic ability such as: 'Body Lifting at will', is more difficult than 'Healing a Body'. (v8D)

As one comes up the Bridge, ability rises on each dynamic where it was non-optimum, from D1 → D13, of course, not necessarily in sequence.

A 13D Ability is close to the Source Level absolutes, such as Rights of a On, so awareness should comprehend all of the Source Level material before

attempting these actions.

The value and importance of the Source Level material is that it can lead to a COMPLETE EVALUATION of the relative importances of the "actions, which is an "absolute requirement" for OMMT operations. (See 27 Oct 88 Issues)
