Dear Derek - Re: Your 27 Aug 88.

Thank you for the data on the "Above Top Secret" book. I understand that is a library copy. As I wrote to Allen G. there is no use in buying one until its out in paperback at a reasonable price. You are correct about the cover-up of the "Armageddon" scenario.

It is a copy of an old already-played game plan being restimulated and foisted upon the one-lifetime earth people who don't recall it. Since off-planet takeover

groups work on longer time spans (centuries), anything carrying on for more than 50 years or one life-time is "incredible" to an earthling. Thus it can be done without any fear of discovery - or if it is, the opposition can be dismissed as cranks, crazies, cultists, conspiracy buffs, or just insane.

The last "Armageddon" game scenario ended with one H-bomb in a "Middle East" base area and was the final outrage that pushed the planetary population into acceptance of a ONE WORLD GOVT & POLICE FORCE. (Sound familiar?) The perpetrators were the remnants of what Ron calls the 4th & 5th Invaders

acting together. We would
call them Implanters ^(5th)
Markabians ^(4th) today. You
might ask - how can they
make it be dramatized like
a clock? Easy, one part of
the scenario is to implement the
"old" game dating system. Did
you ever wonder why Ron
put in a NEW ONE (After Dianetics)
It was to break the dramatization
of "Anno Domini" dates. Thus
the "predictions" of Armageddon
in "1992" and the frenzied
push to get the One-World ready
to take over by then. Its just
the old game pattern all over
again! And the conspirators
pushing via the media and
government to make it seem
it is repeating (but saying
its "predicted" and "God's will")

In our OT operations, we are auditing to break that dramatization and there is success. There are great differences showing up already in comparison to the "old" game plan (which we know all about). But there will be a double amount of confusion (but also not as dangerous). The original PLANNED confusion to make people accept totalitarian rule, and the CONFUSION in P.T. because it isn't happening per the plan.

This means the perpetrators will also be confused, which is what you see in the news today (confusion both high & low.) This should make your history easier to write! Love
Capt Bill.
