

VAST,
VLR
SSE/S.

27 July 89.

CEL-Additional- the
"Know to Mystery" Scale.

After doing CEL BLCB down
to 0%, it is possible that
even more may be freed from
the body by running out
any Ons stuck in "being items
on the Know to Mystery Scale".

Apparently some low-energy Ons
from LTA Auditing were
processed in the direction of
becoming these items, especially
the lower ones such as SYMBOLS,
EAT, SEX, MYSTERY.

The process to use to free them
is the PrPr 3, but using the K-MA
scale items one at a time till
all at that level (or item) have
been freed.

Dr SSE/S Rons,
see p. 2 →

Example: Lower CEL to 0%:

"Ons who were audited LTA into a state of (SCALE ITEM)?"

If so, then: (maybe run in any order or wishes)

① "What conditions have you encountered in LTA auditing toward a state of (SCALE ITEM)?"

② "Tell me how you handled it."

Run 1, 2, 1, 2, etc to EP of On(s) fully awake and ready to leave or exterior to body, i.e., they have "lifted out." Then do a BLCB to handle left-overs and go to next scale item.

At end of session, check for wrong items from these Ons affecting the Body Org. Indicate BPC, Find right items (or none). Do any BLCB needed. OK
SICB Rons.
