Notes on Space MOCO's

On Process 14 (V/I on "Handling with a On"), I found it would not flatten until I ran an ARE-KRE Break (Known Responsibility) concerning the misuse of Space in LTA for demonstrating "OT tricks," - but not to get to the end of the game; and thus ^{it} acted as a betrayal. By handling this, I became aware of certain BBTs who were "being" only Space and preventing the Space MOCO's from finishing the process. These BBTs believed they were members of a "Space Patrol" and had taken on the valence of ~~the~~ and purpose of the Space MOCO's! (To exist

until the end of the game) They were responsive and ran out on Pr P, 3 on LTA Auditing & a good B/CB with big charge & blows on LTA Inc II, ~~I~~, Pre I and GOG's LTA. (They had all voted for Kenk.)

Then the Purpose, Came Orientation step and Blow Steps again and they all went free. The Space moos, then finished easily the "Handle" and "Review" processes 14 & 15, with their own B/CB afterward.

Space itself (^{the} moos) was being held "out of PT" by these BBT's!!
