Next Process

It finally came to me after trying several vectors to continue the auditing of $\lambda \in \text{MEST}$ what the next process has to be - the only "arbitrary" (non-moco part) of $\lambda \in \text{MEST}$ or 5th + 6th Dynamic is TIME.

So, V/I on TIME, run on

λ , then Space MOEOs, then Energy MOEOs, then Matter MOEOs is the next step.
